4.Title	Challenges to Balanced and Accessible Intellectual Property System
Conference	National Conference on Intellectual Property Rights 2008, Indian Institute of Management, Kanpur, February 28-29, 2008
Author	Prof.(Dr) V.V.Sople
Abstract	<p>The intellectual property system is one of the pillars of modern economic policy at the national level. It is increasingly becoming an important tool for sustainable development in the knowledge based society of this millennium. Therefore, understanding and appreciating the economic foundations of the IP systems is a prerequisite for comprehending its increasing importance and role in national strategies for enhancing competitiveness and accelerating socio-economic development. IPs are increasingly being recognized the world over as important commercial assets and as a driving force in technological progress and socio-economic development. IPs seeks to create a broad-based sustainable improvement in the quality of life and standard of living. This paper discusses IP system with proper IP governance with major challenges at both in system development and its implementation at national level for balanced and accessible system.</p>
